Murata OSA organizations

Subject: Product Discontinuance/EOL Notification

Murata Part Number: All ICQ, ICH & ICF prefix DC-DC Power Modules

Reference

See below for complete part number list.

This letter is intended to provide all Murata Sales Organizations (OSA) pre-notification that the ICQ, ICH & ICF series of DC-DC power modules will be discontinued (EOL) through the Murata EOL systems. We expect the notification to go out early October 2018 to be compliant with the Murata product EOL cycle.

Beginning today we ask that you stop promotion and identify any customers who have requested samples or have designed in the products and will be expecting delivery of orders over the next few weeks/months. We will be pulling all modules from the distributor inventory with no alternative for replacement through the Product Discontinuance/EOL process.

Please email all information regarding your potential customers to John Quinlan @ John.Quinlan@murata.com. John will work with the customers to provide an alternate solution.

Below are the part numbers affected by this notification:

Model Number	Model Number	Model Number	Model Number	Model Number	Model Number
ICQ0120V1PC	ICH0518V1NC	ICH0513V1PC	ICF0442V1NC	ICF0719V1NTC	ICF0621V1NSC
