<b>Description of change</b>	<p>We have extended the LTB date to 3/31/16 per customer request. We will do our best to accommodate all orders; we will do orders first in - first out.</p> <p>Watchport/T sensor (temperature) is being discontinued due to slow sales. We are recommending that customers move to the Watchport/H sensor, which has both humidity and temperature sensing.</p> <p>This is an ongoing effort to streamline our product offerings to focus on consistent product availability while maintaining our high quality of product.</p> <p>All LTB purchase orders are NCNR (non-cancellable/non-returnable).</p> <p>Standard warranty policy will apply to all LTB purchases.</p> <p>There will be a price increase of 10% as of April 1, 2016. We do not expect orders after the last time buy, but this is to help emphasize that Digi needs the orders before the end of March due to timing with other last time buys.</p>
