QUALITY

Management Summary

All unique serial numbers have been used during the lifetime of the HITAG 2 products (introduced 1997). To further support HITAG 2 serial numbers have to be restarted and will be no longer unique.

Change Category

[ ] Wafer Fab process	[ ] Assembly Process	[X] Product Marking	[X] Design
[ ] Wafer Fab materials	[ ] Assembly Materials	[ ] Electrical spec./Test coverage	[ ] Mechanical Specification
[ ] Wafer Fab location	[ ] Assembly Location	[ ] Test Location	[ ] Packing/Shipping/Labeling

Restart of HITAG 2 serial numbers - All unique serial numbers have been consumed

Details of this Change

The HITAG 2 serial number range will be re-used meaning that products do no longer provide a unique serial number.
For differentiation purposes new product types with new 12NC will be introduced for HITAG 2 products which are re-using the HITAG 2 serial number range.
Existing HITAG 2 products will be discontiued.

Why do we Implement this Change

All unique serial numbers have been used during the lifetime of the HITAG 2 products (introduced 1997). To further support HITAG 2 products, serial numbers needs to be restarted and therefore will be no longer unique.

Identification of Affected Products

Replacement part type created, see Parts Affected list

Product Availability

Sample Information

Samples are available upon request

Production

Planned first shipment 01-Jan-2014

Impact

no impact to the product's functionality anticipated.

Data Sheet Revision

A new datasheet will be issued

Disposition of Old Products

Existing inventory will be shipped until depleted

Additional information

Affected products and sales history information
Self qualification _____

Timing and Logistics

Your acknowledgement of this change, conform JEDEC JESD46 D, is expected till 12-Nov-2013.
