

PRODUCT CHANGE NOTIFICATION

PCN No.: PCN220401

This Product Change Notification serves to inform the Purchaser and Consumer of certain design and or specification changes, described herein, that Crydom will make to its line of Solid State Relay model numbers indicated in the attachment and in accordance with the described time line.

Issue Date: April 18th 2022

Effective Date: April 18th 2022

Subject:

Use of alternative ground screw on CTR and GNR Series DIN Rail mount Solid State Relays

Scope:

Due to an unexpected delivery delay from our ground screw supplier we are facing a material shortage for a limited period of time.

Description of Changes:

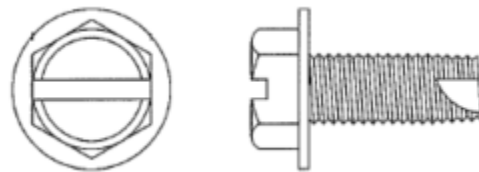

An alternative ground screw will be used on our CTR and GNR Series SSRs on a temporary basis, until we receive screws from our original supplier. This alternative screw is currently being used as the standard ground screw on other Crydom brand SSRs.

The functionality of the product will not be affected at all and the main difference between the two screws is that the original screw has a round head while the alternative screw has a hexagonal head.

Original Ground Screw

Alternative Ground Screw

Applicability:

Design/Specification changes described herein apply only to specific models produced as of the effectivity date indicated in the PCN.

Products/Models this PCN applies to:

CTRx6025x
GNR10xxx
GNR20xxx
GNR25xxx
GNR30xxx
GNR35xxx
GNR45xxx

Last Ship Date for old designs:

N/A. This modification will be effective Apr 18th, 2022

Stock Returns:

Standard annual stock rotation and warranty provisions per contract apply. There is no need to return stock unless specific cases where all the conditions above, for the product type and operation modes noted herein are applied.

If there are any questions or concerns regarding the changes described in this document please do not hesitate to reach out to us.
