MODEL NUMBER: P006-003-15D

Computer power cable allows you to connect your PC, printer or monitor into a surge protector, PDU or UPS with a NEMA 5-15R outlet.

### Features

**Desktop Computer Power Cord Connects PCs, Printers, Monitors and Other Equipment** This computer power supply cable is designed for home/office desktop computer applications. You can use it to connect a computer, monitor, printer, scanner or other device with a C14 power inlet to an AC wall outlet, surge protector, UPS system or PDU. The three-foot length helps reduce cable clutter and minimize the risk of tripping. Note: This cord is not for use in European markets.

**Right-Angle PC Power Cable Is Easier to Connect in Tight Spaces** The angled NEMA 5-15P connector makes installations easier in confined spaces, such as the back of a rack enclosure cabinet. When plugged in, the right-angle plug guides the computer power supply cable parallel to the wall, allowing you to push furniture up against a wall to maximize space.
