

Product Change Notification

PCN-PCC-1339-2018

Business Unit	Product Line Code	Type of Change	Action	Date of Issue
PCC - PCB Connectors	AAA	Product Change Notification	Notify Distributors and Field	3/7/2018

The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description for Product Change Notification

In response to high customer demand, Phoenix Contact is modifying the production process of the listed DMC 1,5 connectors from an overmolded process to a traditional pin assembly process. Changes will include: gaps within the side panels (identified as 1 in attached images); inner, non-functional dimensions (identified as 2 in attached images); certain tolerances will be increased (highlighted in yellow on attached images), but will still meet the through-hole-reflow standard IEC 61760-3. The technical performance data, materials, approvals, PCB layout, and external dimensions will not change. New versions are expected to begin shipping July 2, 2018, and will be identified by a change to the version code (V/C) as noted on the attached spreadsheet.

Stock Status

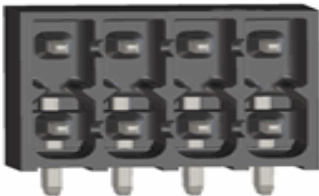

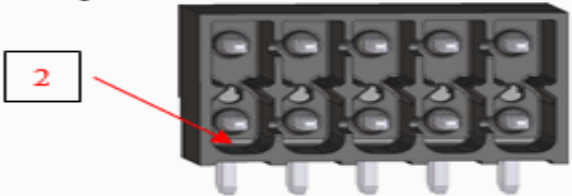

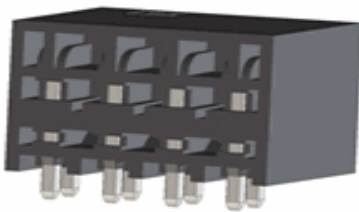

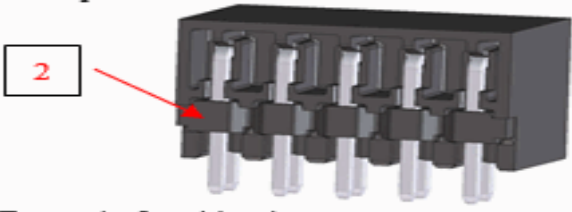

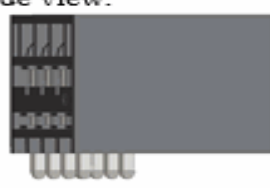

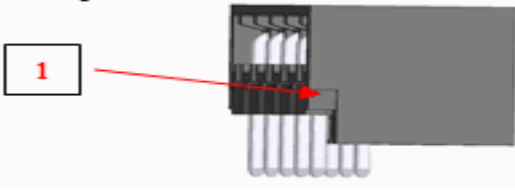

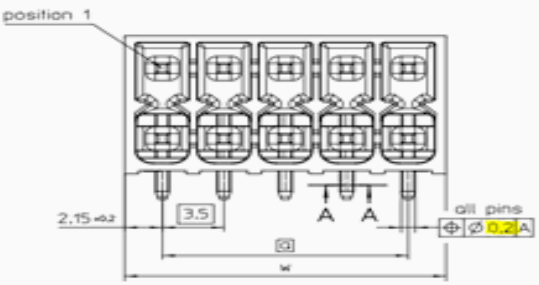

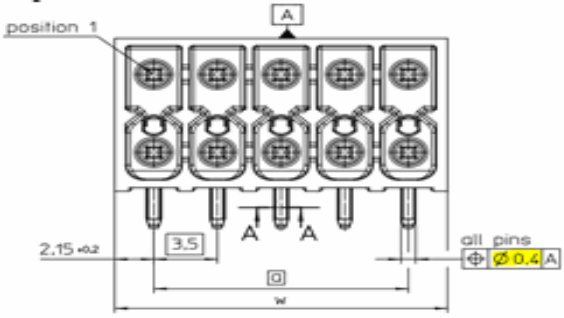

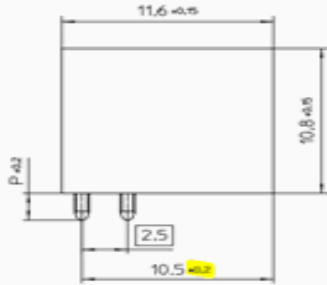

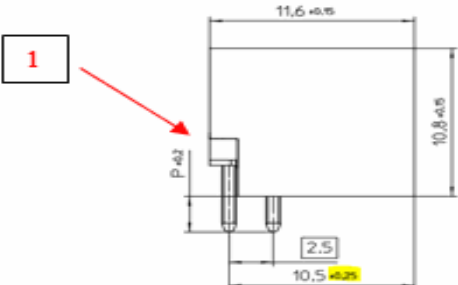

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	No

Transaction Dates

Date modification goes into effect from Germany:	7/2/2018
Expected first shipment (from Phoenix Contact) of the modified products(s):	7/2/2018
