The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

### **Description of Change:**

**Warranty Information:** 

The fit, form, function of the ATEX relays remain unchanged. The temperature range of ATEX approval was extended: DPDT version is now -40 °C to +70 °C.

SPDT version is now -40 °C to +60°C

The ATEX relays are now global part numbers and being manufactured at the Phoenix Contact Bad Pyrmont facility, in Germany. The last digits of the part number descriptions have all been updated so that they have the same uniform ending, reading ATEX. The printing on the socket/base was two-sided, it is now combined and printing appears only on one side. See images below.
