

## EOL Notice FI\* Series Design Kits

To whom it may concern:

Our JAE Tijuana Manufacturing facility will no longer be able to support assembling the following design kits for our FI, FI-R and FI-X products. Therefore, no further orders will be accepted. Please continue to sell the remaining kits in your existing inventory. JAE does have a CEM source that is willing to step in and support any additional orders if any distributor would like to continue offering these design kits to customers.

#	Part No.
1	FI-S20S-KITASSY-300M
2	FI-RE41HL-KITASSY-300M
3	FI-RE51HL-KITASSY-300M
4	FI-X30HL-KITASSY-300M

This change is effective immediately. For more information please contact your local account representative.

Thank you for your cooperation.
