

USB-C to DisplayPort Flat Adapter Cable (M/F), 4K 60 Hz, Thunderbolt 3 Compatible, Black, 5 in. (12.7 cm)

MODEL NUMBER: U444-F5N-DP4K6

Flat USB-C to DisplayPort cable connects a DP monitor to your MacBook Pro, Windows laptop or tablet's USB-C or Thunderbolt 3 port.

Features

Flat USB-C to DisplayPort Adapter Connects to Your Laptop's USB-C or Thunderbolt 3 Port This USB Type-C to DisplayPort adapter (M/F) connects to a DisplayPort cable to add a DisplayPort monitor to the USB-C or Thunderbolt 3 port on your MacBook Pro, Windows laptop, tablet, smartphone or PC. It's ideal for multitasking, presenting video at trade shows and conferences, editing documents, playing online games and watching movies on a larger screen.

Flat FPC Design Allows Easy Handling and Storage The flat, bendable FPC (Flexible Printed Circuit) body helps the cable connect to devices in tight spaces or around obstacles. It rolls easily for tangle-free storage in your backpack or laptop bag.

Supports USB-C DisplayPort Alternate Mode for Converting Audio/Video Signals By connecting the USB-C connector to a source device that supports USB DisplayPort Alt Mode, you can output 4K video and digital audio to a DisplayPort monitor, television or projector without installing special software drivers.

Transmits Crystal-Clear 4K Video with Digital Audio and 4:4:4 Color The U444-F5N-DP4K6 supports Ultra HD video resolutions up to 3840 x 2160 (4K x 2K) at 60 Hz, as well as 36-bit Deep Color. This adapter also supports 4:4:4 chroma subsampling for top-level PC gaming or using your HDTV as a PC monitor.

Reversible USB-C Connector Attaches in Either Direction Unlike traditional USB cables that connect in only one direction, the reversible USB-C male connector plugs into a USB-C or Thunderbolt 3 port in either direction for an instant connection every time.

Ready to Use Right from the Package, So You Can Plug and Play Immediately The plug-and-play adapter is specifically designed for use with the MacBook Pro, Windows laptops and other devices equipped with a USB-C or Thunderbolt 3 port. It requires no software or external power. The five-inch cable fits into your pocket, briefcase or laptop bag for connecting to DisplayPort monitors anywhere.
