

**PRODUCT NOTICE #160119:  
DIGI XLR PRO UPDATES – F/W 1X07, BOM UPDATE, MEXICO CERTIFICATION**

**Date:** January 19, 2016

**Product:** Digi XLR PRO Industrial Radios

**Notice:**

Firmware Updates:

On December 22 2015, all XLR PRO radio firmware was updated from version 1x06 to 1x07. For customers who wish to test the new 1x07 firmware, it is available now through [XCTU](#) or for download on the [XLR PRO Support Website](#) under Firmware Updates.

**New Firmware Features:**

- Mini-USB port now available for configuration
- Added ping command – 'ATPG'
- Firmware updates through the WebUI now auto-filter

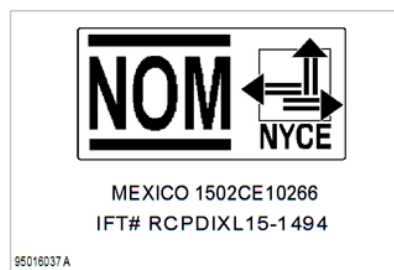

**Critical Bug Fixes:**

- Fixed an issue where the XLR PRO would lockup during IP bridging mode

Hardware Updates:

On December 31 2015, all XLR PRO radio packages that include accessories were updated to remove the USB to Serial adapter cable and add a USB cable for use with the mini-USB configuration port on the product, which was enabled with the release of 1x07 F/W.

In addition, the XLR PRO radios are now certified for use in Mexico, and the labels have been updated to contain the NOM symbol and IFT number;

**Affected Part Numbers:**

| Item Number | Item Description                    | Old Revision | New Revision |
|-------------|-------------------------------------|--------------|--------------|
| XL9-U       | XLR PRO, 900MHz Modem US            | D            | F            |
| XL9-UA      | XLR PRO, 900MHz Modem w/Accessories | F            | H            |

\*Note parts are jumping two revisions, due to the multiple changes that took place
