

NO: TI-043
DATE: April 2012

PRODUCT: H3DK Solid State Timers
TYPE: Modification Notice

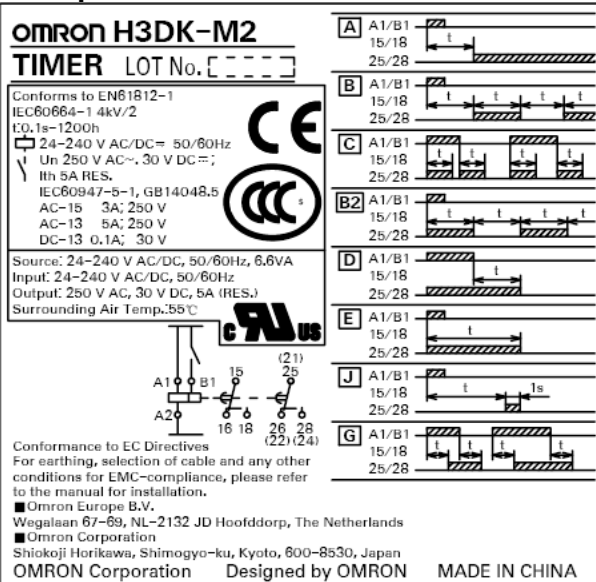

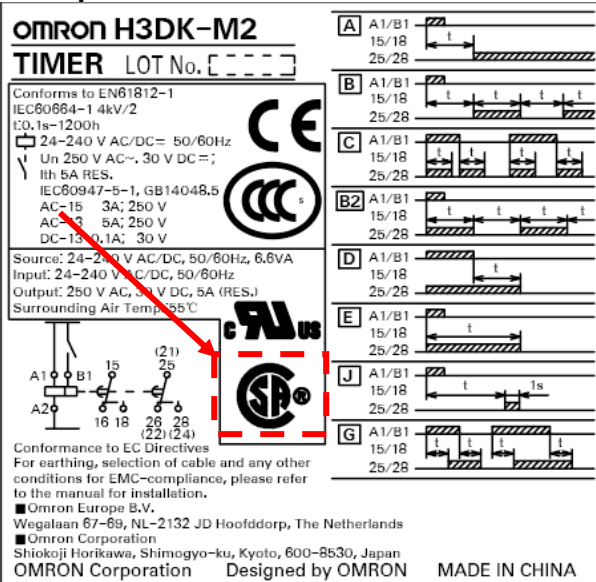

H3DK Solid State Timers Now Carry the CSA Mark

Effective with April 2012 production, H3DK series solid state timers will have the CSA approval marking printed on the product label.

This re-opens opportunities to sell H3DK in all provinces of Canada where inspectors have withheld machine project approval if controls carried the cULus marking instead of a CSA approval mark.
