PCN22-11_ OS103011MA7QP1C: Metal Case Plating Change

1. Purpose

This notification is to announce the metal case plating change for OS103011MA7QP1C.

2. Overview

This change indicates the plating change of the metal case from nickel to tin over nickel underplate to improve the solderability of locking pins where appropriate. The difference impacted is the appearance due to different colour between nickel (Ni) and tin (Sn) on the top plating layer.

3. Impact of Change

Plating change of the metal case from nickel (Ni) to tin (Sn) over nickel.
The figure below shows the change.

**4. Part Numbers Affected**

OS103011MA7QP1C is the only item for this change.

5. Date of application

- Last time buy: Not applicable
- Implementation Date: Running change with the component inventory and immediate change on any new batch of metal shell production.
- This PCN is for information purposes for those who are presently buying this part number.

6. Conditions of Application

- Ordering: PNs remain the same, not affected.
- Pricing: Not affected
- Stock: Not affected

7. Support

Please feel free to reach out to your C&K Sales Representative with any questions you might have.
