#PCN-DC-HEPS-13

Business Unit	Product Line Code	Type of Change	Action	Date of issue
DC	AAA	Mechanical	Notify Distributors and Field	6/20/2013

The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description of Change:

The strain relief tab attached to the plug will have a slightly smaller attachment area to aid in the manufacturing process. Research has indicated that the smaller size assists in the adhering the strain relief tab to the connector body without any change to the strain relief tabs functionality. No features of the plug and strain relief tab have been affected by this change. Depending on current stock levels, both versions of the new and old strain relief tabs will be supplied during the conversion phase.
