PCN of MLVs change to entirely Lead Free (PCN# 3473E 4389E AUTO)

Dear Valued Customers,

Littelfuse Inc. is pleased to announce a product feature upgrade relating to MLVs (multilayer varistors) will be manufactured using the lead free material and process.

After a complete qualification test, the qualification test result ensures that there are no changes to the electrical or dimensional specification. The complete qualification test reports are available upon request.

This change will be effective from **May 7th, 2017**; during this short/transition period, customers are expected to receive the non-lead-free and lead-free MLVs until the non-lead-free product inventory in our warehouse and the distribution channel are depleted.

List of affected Part Numbers:

Affected Part
Number - AUML&ML/

From the publish date of this PCN, all the existing sample order will be made by Lead Free process and materials immediately.

Please respond to us by **March 20th, 2017** to acknowledge notification of this change. If we do not hear from you then we will expect that this change has been accepted and no further action is required. Thank you!

Best Regards
Johnny Chang
