

MT8/8-CC90-A

Ruland T-Connector Mini-Clamp, Thru Holes 8mmx8mm, Length 26.0mm, Aluminum

Description

Ruland MT8/8-CC90-A is a 90 degree connector with a thru hole for 8mm round tube, blind hole for 8mm round tube, and 26.0mm overall length. It is designed to fit on Ruland tubes and flange bolt bases that begin with MT8. MT8/8-CC90-A is aluminum and screws are 304 stainless steel for use in most industrial applications. This 90 degree connector clamp is commonly used to support tubes for mounting sensors, screens, reflectors, plexiglass machine guards, and other industrial components. The blind hole reduces complication in assembly and limits the possibility of a mistake being made by inserting a tube too far into the connector for it to function properly. The thru hole allows designers flexibility to reposition the clamp or tube as needed. MT8-ALK-M4-16 adjustable clamping lever can be used in place of standard clamp hardware for rapid repositioning of the tube or connector without the need for tools. MT8/8-CC90-A is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.

Product Specifications

Thru Hole 1 Diameter B1	8 mm	Thru Hole 2 Diameter B2	8 mm
Thru Hole Tolerance	+0.09/-0 mm	Body Length L1	26 mm
Edge To Center L2	13 mm	Screw To Edge LS	5.5 mm
Hole Depth T	8 mm	Width & Height W1	16 mm
Clamp Screw CL	M4	Set Screw SS	M4
Weight (lbs)	0.035300	Material Specification	Aluminum
Manufacturer	JW Winco/ Otto Ganter	UPC	634529232057
Country of Origin	Germany	Tariff Code	7609.00.0000
UNSPC	31162908
