# 1. Introduction

**NimbeLink is issuing the End of Life (EOL) notification for the NL-M1DK development kit.** This kit was originally developed for the NL-SW-LTE-SVZM20 modem which is now NRND.

## **Affected part numbers:**

- NL-M1DK

# 2. Migration Overview

Nimbelink offers many development kits for the Skywire modem family for many different platforms. For more details on available development kits please visit: <https://nimbelink.com/development-kits/>

NimbeLink understands that changing a major component in any design is a hardship and recommends that all new designs using the NL-SW-LTE-SVZM20 migrate to the NL-SW-LTE-QBG96.

Additionally, customers with existing designs using the NL-SW-LTE-SVZM20 should start evaluating the NL-SW-LTE-QBG96 to develop a migration strategy.

Additional details on the NL-SW-LTE-QBG96 are available on the product page.

This notification is specifically announcing the EOL, End of Life for the NL-M1DK development and is not an EOL for the NL-SW-LTE-SVZM20-X modem. This will be handled in separate announcements and should be expected to occur before the end of 2020.
