#### Description for Product Change Notification

The attached list of HEAVYCON housings will be upgraded with a new locking lever. This new lever will be uniform across all HEAVYCON standard aluminum and EVO housings. Compatibility with similar housings from the market will not be affected by this change.

The new HEAVYCON locking lever can sustain approximately twice the lateral force of the old version. This is accomplished by changing the materials from a PA / stainless steel combination, to what is now a glass fiber reinforced PA construction.
