

Cree® Product End-of-Life Notification

PCN Reference Number: CREE-PCN-1182 **Date Issued:** 9/23/2020

Please be advised that Cree has recently qualified and released new products in both the HM high-performance module line and supporting gate driver portfolio that are upgrades to previously released part numbers. Cree is electing to discontinue the part numbers listed in the first column of Table 1, while encouraging customers to convert to the suggested replacement part numbers listed in the second column of Table 1.

Datasheets are available on Wolfspeed.com for comparison of the differences between the parts being retired and the suggested replacement parts.

Affected Product & Suggested Replacement Product

A list of products affected by this end-of-life notification with the suggested replacement:

Table 1: Affected Products List

Cree Part Numbers Being Discontinued	Cree Suggested Replacement Part Numbers
CAS325M12HM2	CAS480M12HM3
CGD15HB62LP	CGD1700HB3P-HM3
CGD15HB62P1	CGD1200HB2P-BM2

Impact of Change

The existing part numbers will be discontinued. The replacement part numbers are recommended for new designs and are commercially available at Cree authorized distributors.

Effective Implementation Date

This change is implemented as of the issue date of this PCN. Impacted part numbers are no longer recommended for new design and sampling has been suspended. Due to limited quantities of remaining stock, Cree reserves the right to limit quantities ordered during last-time buy.

December 21, 2020: Last day for Cree to receive orders for products being discontinued in Table 1.

Please respond to this notification by indicating any requests for last time buy by October 23, 2020 [issue date plus 30 days]. Lack of acknowledgement and registration of last time buy requests within 30 days constitutes acceptance of the notification without any last time buy requirements.
