

DisplayPort 1.2 to DVI Active Adapter Cable, DP with Latches to DVI (M/M), 1920x1200/1080p, 6 ft.

MODEL NUMBER: **P581-006-V2**

Converts a DisplayPort v1.2 video signal for display on a DVI monitor, projector or television.

Description

The P581-006-V2 DisplayPort 1.2 to DVI Active Adapter Cable connects a DisplayPort computer to the DVI port on a monitor, projector or television. With a latching DisplayPort male connector on one end and a DVI-D male connector on the other, this cable requires no separate adapter. It lets you use your existing DVI display instead of buying a new DisplayPort monitor.

Ideal for displaying video on a large monitor or digital sign, this cable supports computer video resolutions up to 1920 x 1200 and high-definition video resolutions up to 1920 x 1080 (1080p). It converts both Single-Mode and Dual-Mode (DP++) DisplayPort output, and is perfect for use with graphics cards, such as AMD Eyefinity, that do not output DP++ signals.

First-class foil and braid shielding delivers reliable, error-free signal quality and protection from EMI/RFI interference. Gold-plated connectors and contacts ensure excellent conductivity. The Displayport plug latches to the port to provide a secure connection. Integral strain relief ensures the cable and molded connectors last a long time.

Features

Send High-Quality DisplayPort v1.2 Video Signals to a DVI Display

- Connects DisplayPort computer to DVI-enabled monitor, projector or TV
- Ideal for displaying video on large monitor or digital sign
- DVI-D and DisplayPort male connectors
- No separate adapter required

Vibrant, Superior Video Quality

- Supports computer video resolutions up to 1920 x 1200

Highlights

- Active adapter cable for use with any Displayport port
- Supports computer video resolutions up to 1920 x 1200
- Supports HD video resolutions up to 1920 x 1080 (1080p)
- No separate adapter required
- Gold-plated connectors and contacts

Package Includes

- P581-006-V2 DisplayPort 1.2 to DVI Active Adapter Cable, 6 ft.

- Supports HD video resolutions up to 1920 x 1080 (1080p)
- Converts Single-Mode and Dual-Mode (DP++) DisplayPort output
- Perfect for use with graphics cards, such as AMD Eyefinity, that do not output DP++ signals

Superior Materials for Superior Performance

- Double shielding with foil and braid for maximum EMI/RFI protection
- Gold-plated connectors and contacts for excellent conductivity
- Latching Displayport plug for secure connection
- Integral strain relief for long life
