

2-Port Mini DisplayPort to DVI Splitter, TAA

MODEL NUMBER: **B155-002-DVI**

Converts and splits a Mini DisplayPort video signal for display on two DVI monitors, projectors or televisions at the same time. Ideal for offices, conference rooms, retail settings, trade shows and classrooms.

Description

The B155-002-DVI 2-Port Mini DisplayPort to DVI Splitter converts and splits a Mini DisplayPort video signal for display on two DVI-enabled monitors, projectors or televisions at the same time. Ideal for offices, conference rooms, retail settings, trade shows and classrooms, this compact splitter features a built-in Mini DisplayPort cable that connects to the source. It lets you use your existing DVI displays instead of buying new Mini DisplayPort monitors or docking stations.

The B155-002-DVI supports video resolutions up to 1920 x 1080 (1080p) at 60 Hz, as well as HDCP, EDID and DDC. Orange LEDs next to each output port indicate whether the splitter is powered on and transmitting a signal to the connected displays. The splitter works with all operating systems and is small enough to carry in your backpack or computer bag. Plug-and-play convenience means no software or drivers are needed. An included USB Micro-B cable connects between the source and the splitter to provide power, so no external power supply is required.

Features

Converts and Splits Mini DisplayPort Signal to 2 DVI Displays Simultaneously

- Ideal for offices, conference rooms, trade shows and classrooms
- Built-in Mini DisplayPort cable connects to source
- Included USB Micro-B cable supplies power to splitter
- Save money on new Mini DisplayPort displays or docking stations
