

TE Connectivity

Product Change Notification: P-15-011961 PCN Date: 25-AUG-15

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
250 Series Positive Lock Terminal Receptacle

Description of Changes
Add alternative C274 brass for 250 Positive Lock Terminal

Reason for Changes:

Product improvement. In an effort to standardize raw material on a global basis. TE Connectivity has completed a review of our current material standards for Brass connectors. This review has resulted in our design to reduce the number of regional alloys and align at the global level by standardizing on C27400 alloy.
