December 16, 2021

Announcement of production termination concerning FDK Ni-MH battery HR-4U (Typical 1000mAh) model

Thank you for your cooperation and business relationship with FDK.

Due to the decline of the business demand, we have decided to terminate the production of "HR-4U (Typical 1000mAh)" model on December 31, 2022. If you may need to require an alternative idea to maintain your current business, please consider "HR-4UTGX (Typical 1000mAh)" model based upon product requirement of the customer application.

We appreciate your understanding and cooperation. We hope we will be able to continue the good relationship with you through the alternative idea.

1. Current model : "HR-4U (Typical 1000mAh)"

Some of specifications are "Typical 1000mAh", "Minimum 930mAh" and the dimension is 10.5mm x 44.5mm.

2. Alternative idea : "HR-4UTGX (Typical 1000mAh)"

Some of specifications are "Typical 1000mAh", "Minimum 930mAh" and the dimension is 10.5mm x 44.5mm.
