

434MHz water resistant antenna ANT-400-R

The ANT-400 is a 3/8 Lambda non-directional antenna with SMA connector for the 434 MHz band. The external cover uses elastomeric material which has good weather resistance. The metal base part can be fixed to the housing of the product.

Features

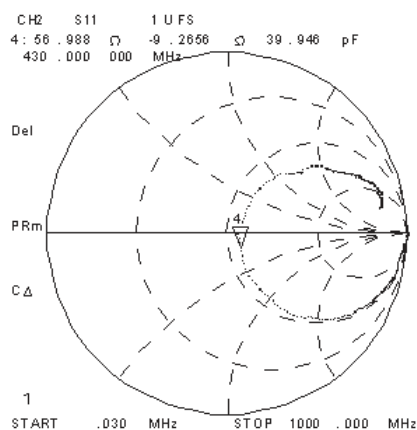

- 434 MHz band
- 3/8 Lambda non-directional antenna
- Weather proof for outdoor use
- SMA connector

Parameter	Specification	Remark
Frequency band	410 to 450 MHz	SWR = 2
Antenna type	3/8 Lambda	
Impedance	50 ohm	
VSWR	2 or less	
Gain	2.15 dBi or less	
Connector	SMA	
Length	184 mm (Antenna) 13.2 mm (Antenna base)	Includes a connector
Weight	45 g	
Attachment	Nut, washer
