Subject: End of Life Notice for AC-DC Power Supply

Dear Valued Customer:

SL Power has been proactively working on identifying legacy models that are in jeopardy for long term production. Component availability and new requirements for regulatory upgrades are the main drivers in this process. Next generation products with better technology, more cost effective and higher performance have been developed to replace many of these legacy models.

A list of part numbers designated as End of Life (EOL) is attached for your reference and where applicable, a new product replacement is recommended for possible use. SL Power offers its Customers an opportunity to make a Last Time Buy for any of the products listed as EOL, with a slight increase in the price. The following information summarizes our schedule with respect to EOL products eligible for Last Time Buy orders:

New Price Effective	5/1/2016
Deadline for Receipt of order*	8/15/2016
Deadline for shipment*	12/31/2016

*Please note that any LTB orders will automatically be considered Non-Cancelable Non-Returnable (NCNR).

Please visit www.slpower.com for information on the suggested replacement power supply or contact your local SL Power sales support for more details.

We trust that this notice has provided ample time for adjustment to your procurement/sourcing plans and look forward to continuing our support to your organization.

Sincerely,

Cochise Mapa
Director, Product Management
SL Power Electronics Corp.
