General Product Description:
AMPLIMITE Board Connectors

Description of Changes
The following part numbers are being superseded (obsolete status). The superseding part numbers are shown below with any significant difference described. Please verify that all superseding part numbers provided below are suitable for your specific application- Drawings are available via TE.com.

Reason for Changes:
Discontinuance. Dear Customer, You are receiving this notice because TE Connectivity has record of you purchasing a part or multiple parts on the list below. Within our continued efforts to manage/ optimize our product portfolio throughout the lifecycle, we've made the decision to supersede the parts stated thereafter. We are superseding the existing connectors with new connectors from different source tooling. The new connectors are drop-in replacements with very slight dimensional and/or visual differences. The dimensional changes are on the order of tenths of millimeters and in no way affect the function or intermateability. We opted for new part numbers to avoid any confusion.
