General Product Description:

DEUTSCH Brand Size 12 Stamped and Formed Gold Contacts

Description of Changes

Dear Customer, in an effort to continuously improve our products, TE-ICT will update the gold region for the Size 12 stamped and formed Pins and Sockets. The thin gold flash layer will no longer extend into the crimp area, but the thick gold layer will remain in the Pin/Socket interface area. Tin will be added to the crimp area. This will not impact connector performance. IMPORTANT: This is a continual change so the current and previous revisions of this part can be used interchangeably in the field. This change is being phased in gradually and previous revisions may remain stocked until use.

Reason for Changes:

Manufacturing / Process Requirements. Standardization of the gold plating compared to DEUTSCH Size 20 Stamped and Formed contacts.
