## **Times Microwave Systems introduces 39 new connectors which replace older designs**

Times Microwave Systems announces the upgrade of thirty-nine of their connector configurations. These upgrades were primarily driven by the desire to make all of the LMR crimp style connectors, WSB boot compatible. With all but the two LMR-100A and the seven LMR-900 designs, the new connectors are compatible with the new WSB strain relief boots, rated to IP-67 and have excellent corrosion resistance. All of these new designs have optimized VSWR performance. In addition, the twenty-four new X series designs are compatible with the CST cable prepping tools and are “no braid trim” designs.

<b>Cable</b>	<b>Interface</b>	<b>Part Number</b>	<b>Stock Number</b>	<b>Old Stock Number</b>	<b>Reason for Change</b>
LMR-100A	SMA Male	SC-100-SM	3190-2245	Replaces 3190-1551	electrical performance
LMR-100A	TNC Male	SC-100-TM	3190-2656	Replaces 3190-1552	electrical performance
LMR-195/200	QN Male	EZ-195/200-QNM-X	3190-8038	Replaces 3190-6208	WSB boot compatibility

### About Times Microwave Systems

Times Microwave Systems has over 70 years experience in designing innovative, high-reliability, coaxial cables and assemblies for demanding interconnection problems. An engineering oriented organization, the company specializes in the design and manufacture of high performance flexible and semi-rigid coaxial cable, connectors, and cable assemblies for RF transmission from HF through microwave frequencies as well as surge arrestors for the protection of RF equipment.
