### Summary

---

End of Life and Last Time Buy of WP7502 and WP7504 LTE modules, and WP8548 3G module.

### Details of Change

---

Due to the End of Life of key components, Sierra Wireless is discontinuing the WP7502, WP7504 and WP8548 modules.

Customers wishing to extend the life of a platform that has integrated the Sierra Wireless WP7502, WP7504, or WP8548 have two options:

1. Purchase sufficient quantity of the WP7502/WP7504/WP8548 before the last purchase date to support the projected life of the platform.
2. Integrate a WP76 or RC76 module for any new design. The following modules are suggested for product migrations:
  - o Customers using Legato® Application Framework: WP76xx
  - o Customers not using Legato®: RC76xx
  - o WP7502 (EMEA): WP7607 or RC7620
  - o WP7504 (North America): WP7611 or RC7611
  - o WP8548 (global): various WP76xx or RC76xx options exist depending on the applicable region

Sierra Wireless will no longer support new integrations using the WP7502, WP7504, or WP8548.
