

Temporary Suspension of Availability
OVQ12S30W7
White Flexible LED Strip

TT Electronics Sensing and Control announces that due to the obsolescence of the LED used in the manufacture of the OVQ12S30W7 white flexible LED strip, the product is temporarily unavailable.

Our engineering group is in the process of redesign and requalification of a direct replacement. We anticipate “re-release” of the OVQ12S30W7 in the third quarter this year.

Please note: Current Factory Backlog is **not** affected. In addition, limited quantities may be available (subject to prior sale). Contact your Optek Customer Service Representative for availability.

Please feel free to contact me if you have any questions, comments or concerns.

Thanks and best regards,

Jeff Beatty
