

# 2-Port HDMI over Cat6 Receiver - 4K 60 Hz, HDR, 4:4:4, PoC, HDCP 2.2, 230 ft. (70.1 m), TAA

## MODEL NUMBER: B127A-2A0-BH

Works with a Tripp Lite B127A-Series transmitter, switch or splitter to extend 4K video 230 ft. to 2 HDMI displays via Cat6 cable.

#### **Features**

#### **HDMI Dual-Output Receiver Ideal for Digital Signage in Schools and Workplaces**

This 4K receiver is recommended for video presentations in conference rooms, schools, trade shows, meeting facilities, houses of worship, retail settings, hotels and other digital signage applications where the source and display are farther apart than conventional A/V cables allow.

#### Extends a 4K A/V Transmission up to 230 ft....or Even Farther

The B127A-2A0-BH connects to a Tripp Lite B127A-Series transmitter, switch or splitter to extend 4K signals from an HDMI source to two HDMI displays up to 230 feet (70.1 meters) away via user-supplied Cat6 cabling. By adding a Tripp Lite B127A-010-H signal repeater (sold separately) to the application, you can extend the signal up to 400 feet (121.9 meters) per display.

### Supports Crystal-Clear 4K Video with Multi-Channel Audio, HDR and 4:4:4 Color

The B127A-2A0-BH supports Ultra HD resolutions up to 3840 x 2160 (4K x 2K) at 60 Hz with 7.1-channel surround sound audio via TOSLINK. High Dynamic Range (HDR) provides a wide range of vibrant colors with richer contrast, brighter whites and deeper blacks that pop on your 4K display. HDCP 2.2 compliance allows you to stream 4K Amazon and Netflix content with no complications. This receiver also supports 4:4:4 chroma subsampling for top-level PC gaming or using your HDTV as a PC monitor. Built-in equalization allows you to fine-tune the image quality at the remote displays.

# Built-In PoC Technology Provides Receiver Power to Avoid Bulky External Power Bricks

Power over Cable (PoC) technology powers the B127A-2A0-BH over Cat6 cable. LEDs indicate when the system is receiving power and a signal is being transmitted. PoC lets you avoid the hassle of a bulky power brick and gives you the freedom to place the receiver where needed without worrying about finding a nearby AC outlet.

#### Plug-and-Play Operation for Quick Setup and Immediate Use

The receiver works right out of the package with no software required. Mounting hardware is included for installing it on a wall, pole or 19-inch rack. Connect the receiver to a transmitter, switch or splitter with user-supplied Cat6 cable (such as Tripp Lite's N202-Series). Connect to two 4K displays with user-supplied HDMI cables (such as Tripp Lite's P568- or P569-Series).
