

## MT8-CBSW-16-AN

Ruland Swivel Clamp Connector Base, Ruland Swivel Thru Hole 4.5mm, Clamp Width 16mm, Clamp Screw M4, Black Anodized Aluminum

### Description

Ruland MT8-CBSW-16-AN is a swivel clamp connector base with a 29mm base width, 31.5mm base diameter, 16mm clamp width, M4 clamp screw, and 25mm overall length. It is designed to fit with MT8 swivel clamp joints, t-swivel clamp joints, and swivel mounts with the same width and height. When combined with a swivel clamp or connector MT8-CBSW-16-AN is an ideal articulating mounting solution for screens, sensors, reflectors, plexiglass machine guards, and other components that require frequent adjustments. An MT8-ALK-M4-16 adjustable clamping handle can be used to join it to clamps and connectors for rapid repositioning without the use of tools. It is aluminum with a black anodized finish and screws are 304 stainless steel for added corrosion resistance when compared to unplated types. MT8-CBSW-16-AN can be permanently installed on extruded aluminum frames, sheet metal, and other surfaces using M4 hardware or the user can opt for portability by using MAGNET-43-22 magnetic base. It is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
