

LulzBot TAZ Etched Modular Print Bed Heater

The LulzBot TAZ Modular 3D Printer Bed System ensures your LulzBot TAZ is going strong for years to come with improved ease-of-maintenance, increased versatility, and better heat uniformity across the bed surface. The 3D printer heated bed system is an easy and smart upgrade to a LulzBot TAZ 3D Printer (compatible with 24-volt versions only, TAZ 3-6, Workhorse, and Pro).

The LulzBot TAZ Modular 3D Printer Bed is the lower half of the TAZ Modular Print Bed System and features a silicone heat pad vulcanized to a stainless-steel heat spreader.

Works with: LulzBot TAZ Workhorse, LulzBot TAZ Pro, LulzBot TAZ 6, LulzBot TAZ 5, LulzBot TAZ 4, LulzBot TAZ 3

Features

Etched stainless steel heat spreader for maximizing uniform heat distribution across the print surface.

Compatible with all 24-volt LulzBot TAZ 3D Printers (TAZ 3 through TAZ 6).
