

4-Port USB Charging Station, 5V 6A/30W USB Charger Output

MODEL NUMBER: **U280-004**

Charges up to 4 electronic devices at the same time via USB connection. Ideal for quick-charging tablets, cell phones, laptops and other mobile devices.

Description

Whether you're at home or in the office, Tripp Lite's U280-004 4-Port USB Charging Station provides enough ports and power to keep your devices at 100% capacity. No more peering behind furniture to find an available outlet or unplugging one device to charge another. You can charge up to four tablets, cell phones, laptops and other devices at the same time. The U280-004 doesn't require a computer, so you can take it anywhere AC power is available.

The U280-004 simultaneously provides up to 5V, 1.5A of power per port at maximum capacity. Each individual port supports USB Battery Charging (BC) specification v1.2 and is capable of delivering up to 5V, 2.4A, which is enough for charging even battery-intensive devices like the Apple® iPad®.

To charge your USB devices, simply connect the four-foot power cord's NEMA 1-15P plug to an AC power outlet, and connect your devices to the available USB ports. The unit protects against overheating, overcurrent and overcharging—in fact, it stops charging as soon as your devices' batteries are at full capacity. A front LED indicates the unit is turned on and receiving AC power.
