

MM2 to MM3 Transition Announcement

EOL Announcement: MM2-T to MM3-T-U Modems

FreeWave's mission is to deliver the highest level of customer service at each stage of a product's life-cycle, including its end-of-life.

FreeWave is pleased to announce the new generation MM3-T & MM3-T-U.

FreeWave is pleased to announce the new generation MM3-T & MM3-T-U. The MM3-T & MM3-T-U will be backwards compatible with the MM2-T & MM2-TU radio models. Dimensions and pinouts are the same as well as the testing standards during manufacturing. During the month of April we will be compiling a list of customers that wish to take part in our Beta program.

We understand that some customers may need to do their own internal testing before switching to the new radio model.

We ask that customers who are interested in the Beta program contact our MM2/MM3 Product Line Manager (Jamie Sibai, jsibai@freewave.com) for more information. The MM3-T & MM3-T-U are expected to be released in June 2020. FreeWave remains committed to its customers as it has for 26 years. If you have any questions regarding the MM2 or MM3 series of radios please reach out to MM2/MM3 Product Line Manager, **Jamie Sibai**, jsibai@freewave.com or email us at support@freewave.com.

Models that will be affected:

- MM2-T
- MM2-T-U
- MM3-T
- MM3-T-U
