

Adafruit Gemma Sequin Starter Pack

PRODUCT ID: 1850

Make your wearables glow with the GEMMA sequin pack! This GEMMA parts pack makes it easy to add light to your wearables. It comes with thread, needles, a holder for 2 x CR2032 coin cell batteries, a GEMMA sewable microcontroller, and warm white Adafruit LED Sequins. This pack is perfect for adding a little sparkle to any garment or accessory, and is a great way to get started sewing electronics.

Note: As of June 20th, 2016 this pack no longer comes with CR2032 batteries to make shipping easier for customers. You can buy some from us or from your local battery-supplier.

The GEMMA Sequin Pack includes:

- Needle set – 3/9 sizes – 20 needles
- Stainless Thin Conductive Thread – 2 ply – 23 meter/76 ft
- 2 x 2032 Coin Cell Battery Holder – 6V output with On/Off switch
- Adafruit GEMMA V2 – Miniature wearable electronic platform
- Adafruit LED Sequins – Warm White – Pack of 5

We also carry different colors of sequins so you can add different glowing LEDs to your project!
