III. Background:

ams-OSRAM AG has decided to consolidate all of their filter fabrication in Premstaetten, Austria due to business reasons. The Filter Fab in Austria is already a qualified site, for example devices such as TCS37013 and its variants (DAX device family) are processed in Austria.

Nevertheless, ams-OSRAM AG still performed qualification, in which details are in the table below.

IV. Implementation Strategy:

Table 1: Implementation Strategy

Phase/ Stage	Status
<i>Change of Filter Fab Location</i>	Subtron
• Phase 1: Risk assessment	Completed
• Phase 2: Evaluation / Experiment	Completed
• Phase 3: Product Qualification Completion	Completed
• Phase 4: Shipment of Mass Production products	March 2023

V. Risk Assessment

This change will not impact the form, fit and function of the product. Product datasheet and package specifications remain the same. ams-OSRAM AG ensures full traceability of the new material via lot ID.

Please be advised that unless we received your written refusal concerning this PCN in writing within 30 days, the PCN shall be deemed accepted.
