# 2. Migration Overview

NimbeLink understands that changing a major component in any design is a hardship and recommends that all new designs using the NL-SW-LTE-SVZM20 migrate to the NL-SW-LTE-QBG96 or NL-SW-LTE-QBG95.

Additionally, customers with existing designs using the NL-SW-LTE-SVZM20 should start evaluating the NL-SW-LTE-QBG96 / NI-SW-LTE-QBG95 to develop a migration strategy.

Additional details on the NL-SW-LTE-QBG96 and NL-SW-LTE-QBG95 are available on their product pages:
