Product change

Increased height for EPCOS power capacitor series B25620

As part of continuous standardization, the height of some PEC MKP DC products of the series B2562* has been increased by up to 1 mm.

The simplified mechanical drawings have been updated accordingly and now include the total height of the capacitor (H_T). New dimensions can be seen in the updated data sheet V10 from May 2015 under www.epcos.com/power_capacitors.

The change has no effects on product quality or lead time.

Scheduled date of introduction: August 29, 2015

Enclosure PCN (ID No. FILM P15-10)

Customers are asked to address inquiries directly to their sales contacts.

Product / Process Change Notification

1. ID No.: FILM P15-10		2. Date of announcement: May 29, 2015	
3. Product / product group: Power capacitors PEC MKP DC	Old ordering code: B25620*	New ordering code: no change	Customer part number: NA
4. Description of change: As part of continuous standardization, the height of some PEC MKP DC products of the B2562* series has been increased by up to 1 mm. The simplified mechanical drawings have been updated accordingly and now include the total height of the capacitor (HT).			
5. Effect on the product or for the customer (benefit, quality, specification, lead time): The height of some products has slightly increased (up to 1 mm). Refer to attached series datasheet B2562* version 10 from May 2015. No change on quality or lead time.			
6. Quality assurance measures / risk assessment: No risks at EPCOS side, customers are requested to check and inform in case of any difficulty.			
7. Scheduled date of change: August 29, 2015			
8. Estimated date of first delivery of changed product: September 3, 2015 If EPCOS does not receive notification to the contrary within a period of 10 weeks, EPCOS assumes that the customer agrees to the change. For an interim period we cannot rule out that old as well as new products will be shipped.
