

MIX GO

45W PD Laptop wall charger and 5,000mAh power bank 2-in-1 with GaN

MIX GO is 2 in 1 design of 45W PD wall charger and 5,000mAh power bank with GaN. It is designed to be compact and travel-friendly to help you easily switch from indoor to outdoor usage scenarios.

| A Mix of 45W PD Wall Charger and 5,000mAh Power Bank

MIX GO is a hybrid of 45W PD wall charger and 5,000mAh power bank in one sleek package. This 2-in-1 design meets various needs of multiple usage scenarios, where you can charge your laptop and phone at home in wall charger mode and charge your phone on the go in power bank mode. MIX GO helps you keep away from the inconvenience of carrying wall charger and portable charger at the same time and charge your devices anywhere, at home or on the go, greatly decrease the electricity anxiety.

| 45W Power Delivery, Fast Charge USB-C Laptops on Wall

Thanks to the GaN technology, now MIX GO can provide 45W Power Delivery with smaller size, cooler operation temperature and higher efficiency. It means you can fast charge your latest USB-C laptops and full speed charge your MacBook or MacBook Air. For your mobile devices, MIX GO fast charges iPhone up to 50% in 30 mins (apply in iPhone 11 / 11 Pro / XS / XR / X / 8) and powers Nintendo Switch to 100% in 2.8 hours. With two USB ports, MIX GO provides simultaneous high-speed charging for MacBook 12" and smartphone.

| High Performance on The Go

With 5,000mAh capacity, MIX GO can extend 20+ hours phone usage as a power bank. ZEN+ Adaptive Charging technology ensures MIX GO supports up to 15W power output, automatically detects your device and fine-tunes the output, widely compatible with Apple smart phone, Android smart phone, tablets and other electronic devices.
