**Subject: End of Life Lumex Part Number SSL-LX3059SRSGW w/Replacement**

As part of an ongoing effort to offer the most appropriate solutions to user interface technology applications, Lumex is making the decision to discontinue the following part number(s) from our current product offering:

SSL-LX3059SRSGW

The suggested replacement is:

SSL-LX3059SISUGW

The primary difference is that:

SSL-LX3059SRSGW used AlGaAs chip technology for RED.

SSL-LX3059SISUGW uses AlInGaP chip technology for RED.

If you have any questions, feel free to contact your dedicated Lumex representative for more information.  
Thank you.

Best Regards,

Lumex Product Management Team
