# USB-C to SATA SSD/HDD Enclosure Adapter - USB 3.1 Gen 2 (10 Gbps), Thunderbolt 3, IP66 Rated, UASP

MODEL NUMBER: U457-025-G2-WPB

Creates portable external storage for SATA drives via the USB-C or Thunderbolt 3 port on your tablet, MacBook or Chromebook.

#### **Features**

Connect a High-Performance SATA Drive to Your Computer's USB-C or Thunderbolt 3 PortThis SATA enclosure is idea for adding external storage space when your laptop's hard drive has no more room for your photos, videos, music and documents. The U457-025-G2-WPB lets you connect a SATA solid state drive (SSD) or hard disk drive (HDD) to any device with a USB-C or Thunderbolt 3 port, including a MacBook, Ultrabook, Chromebook, notebook, tablet or PC. It also helps you retrieve data stashed on old 2.5-inch SATA III, II and I drives up to 2 TB. It will also support higher SATA capacities as they become available.

Transfers Data at Fast USB 3.1 Gen 2 Speeds with UASP SupportThis adapter supports USB 3.1 Gen 2 data transfer rates up to 10 Gbps, which is twice the speed of USB 3.1 Gen 1, to give you more data storage, retrieval and backup capacity. A blue LED indicates when drive data is being read, written or transferred. The U457-025-G2-WPB reads data up to 70 percent faster and writes up to 40 percent faster when connected to a UASP-enabled host controller. It is also backward compatible with previous USB generations, allowing you to use it with older equipment.

**IP66 Rating Denotes Resistance to Dust and Water**The IP66 rating means the SATA enclosure is not only 100% protected against dust, but also able to endure high-pressure jets of water from any direction with no damage or decline in performance. In addition to its water and dust resistance, the U457-025-G2-WPB is shockproof, giving you peace of mind without worrying about dropping and damaging the unit.

**Built-In USB-C Cable Attaches in Either Direction**Unlike traditional USB cables that connect in only one direction, the reversible USB-C male connector plugs into a USB-C or Thunderbolt 3 port in either direction for a fumble-free connection every time. The seven-inch wraparound cable stores within the adapter, ensuring it will never become lost.

**Just Plug and Play for Immediate Use Right Out of the Package**No software, drivers or external power supply is required. The U457-025-G2-WPB is compatible with all USB-enabled operating systems, including Windows, Mac and Linux. Its dustproof, shockproof, IP66-rated case fits easily into your laptop bag, backpack or briefcase, so you can take it with you wherever you go.

#### **Highlights**

- Connects 2.5 in. SATA SSDs and HDDs up to 2 TB to your computer, tablet or laptop
- Dustproof, shockproof and IP66rated to endure powerful jets of water from any direction
- Supports USB 3.1 Gen 2 speeds up to 10 Gbps to ensure lightning-fast data transfers
- Reversible USB-C plug connects in either direction for immediate no-fuss use
- Plug-and-play operation with no software required for easy, immediate installation

### **Applications**

- Create a portable solution for on-the-go file backups and data storage
- Retrieve data from old SATA drives up to 2 TB
- Utilize UASP for high-speed read/write

## **System Requirements**

- Device with a USB-C or Thunderbolt 3 port (USB 3.1 Gen 2 compatibility required to achieve USB 3.1 Gen 2 speeds)
- 2.5 in. SATA III, II or I drive with maximum height of 9.5 mm
- UASP-enabled host controller required to achieve UASP performance
- Compatible with all USBenabled operating systems

#### Package Includes

- U457-025-G2-WPB USB-C to SATA SSD/HDD Enclosure Adapter
- Mini screwdriver
- (10) Screws
- (10) Washers
- Quick Start Guide

# **Specifications**
