Product Change Notification: P-15-012425

PCN Date: 16-DEC-15

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description: HEAVY DUTY BURNER CONNECTOR AND SURFACE BURNER

Description of Changes

Dear customers, the following part numbers are being discontinued (obsolete status). Please verify all substitute or alternate part numbers provided are suitable for your specific application. Drawing are available via Te.com Part 1217108-1 is superseded by 1217836-1, 1217802-1 is superseded by 640750-1, 1217109-1 is superseded by 640750-1, 1217109-1 is superseded by 640750-1.

Reason for Changes:						
Part status change. The superseding of those parts can streamline the Surface Burner portfolio. This will become more efficient in production and also assist to new product development. TE can no longer support the surface burner housing with rectangular retention features due to low volume and worn tooling. Moving forward, we will only be producing a housing with the tear drop shaped clip retention features and the clips used with this housing. Please be sure to update both the housing and the clip.
