

### MCP1650-H00AE30-C

Mellanox® MCP1650-H00AE30 Compatible 200GBase-CU HDR QSFP56 to QSFP56 Direct Attach Cable (Passive Twinax, 0.5m)

### **Features**

- Compliant with SFF-8636
- Compliant with IEEE802.3bj & IEEE802.3cd
- Compliant with IEEE802.3bj & IEEE802.3cd
- Support I2C two line strong interface, easy to control
- Support for hot plugging
- Low Crosstalk
- Low power

## **Applications**

- 10G/40G/100G/200G Ethernet
- Infiniband SDR, DDR, QDR, FDR, EDR, HDR
- Router
- Concentrator
- Data center, cloud server

### **Product Description**

This is a Mellanox® MCP1650-H00AE30 compatible 200GBase-CU HDR QSFP56 to QSFP56 direct attach cable that operates over passive copper with a maximum reach of 50cm (1.6ft). It has been programmed, uniquely serialized, and data-traffic and application tested to ensure it is 100% compliant and functional. This direct attach cable is TAA (Trade Agreements Act) compliant, and is built to comply with MSA (Multi-Source Agreement) standards. We stand behind the quality of our products and proudly offer a limited lifetime warranty.

ProLabs' direct attach cables are RoHS compliant and lead-free.

TAA refers to the Trade Agreements Act (19 U.S.C. & 2501-2581), which is intended to foster fair and open international trade. TAA requires that the U.S. Government may acquire only "U.S. – made or designated country end products."

# **Regulatory Compliance**

- ESD to the Electrical PINs: compatible with MIL-STD-883E Method 3015.4
- ESD to the LC Receptacle: compatible with IEC 61000-4-3
- EMI/EMC compatible with FCC Part 15 Subpart B Rules, EN55022:2010
- Laser Eye Safety compliant with FDA 21CFR, EN60950-1& EN (IEC) 60825-1,2
- RoHS compliant with EU RoHS 2.0 directive 2015/863/EU

### **Electrical Characteristics**

| Parameter  |                        | Requirement   |        |        | Test Condition    |  |                                 |                |
|--|------------------------|---|--------|--------|-------------------|--|---------------------------------|----------------|

## **About ProLabs**

Our experience comes as standard; for over 15 years ProLabs has delivered optical connectivity solutions that give our customers freedom and choice through our ability to provide seamless interoperability. At the heart of our company is the ability to provide state-of-the-art optical transport and connectivity solutions that are compatible with over 90 optical switching and transport platforms.

## **Complete Portfolio of Network Solutions**

ProLabs is focused on innovations in optical transport and connectivity. The combination of our knowledge of optics and networking equipment enables ProLabs to be your single source for optical transport and connectivity solutions from 100Mb to 400G while providing innovative solutions that increase network efficiency. We provide the optical connectivity expertise that is compatible with and enhances your switching and transport equipment.

### **Trusted Partner**

Customer service is our number one value. ProLabs has invested in people, labs and manufacturing capacity to ensure that you get immediate answers to your questions and compatible product when needed. With Engineering and Manufacturing offices in the U.K. and U.S. augmented by field offices throughout the U.S., U.K. and Asia, ProLabs is able to be our customers best advocate 24 hours a day.
