

NO: TI-056
DATE: April 2015

PRODUCT: Y92A-Y1 Time Setting Ring
TYPE: Discontinuation Notice

Time Set Ring Y92A-Y1 for H3B□ and H2C Timers to be Discontinued March 2016

Last order date: February 2016

Note: Date is subject to change based on raw materials and components availability at the factory.

The Y92A-Y1 Time Setting Ring is an accessory for the discontinued, analog-set solid state timers H3BA, H3BF, H3BG, H3BH and motor timer H2C. There is no recommended replacement for this product.

Timer series	Discontinuation date
H3B□	March 2007
H2C	March 2013

The time setting ring allows the operator to lock in a selected, preset time for highly reproducible times. A recess in the ring engages a notch in the lock ring tab, stopping movement of the dial. The time setting ring minimizes setting error by repeatedly stopping at the same point on the dial. For machines that are regularly set for two time settings, two Y92A-Y1 Time Setting Rings may be installed for two setpoints.

Specifications and prices in this product news are as of the issue date and are subject to change without notice. Only main changes in specifications are described in this document. Please be sure to read the relevant catalogs, datasheets, product specifications, instructions, and manuals for precautions and necessary information when using products.
