

## MT12/12-CC2W-AN

Ruland Two-Way Connector Clamp, Thru Holes 12mmx12mm, L 48mm, Black Anodized Aluminum

### Description

Ruland MT12/12-CC2W-AN a two-way connector clamp with perpendicular thru holes for 12mm round and 10mm square tubes, M5 clamp screws, 16mm width and height, and 48mm overall length. It is designed to fit on Ruland tubes and flange bolt bases that begin with MT12. MT12/12-CC2W-AN is aluminum with a black anodized finish and screws are 304 stainless steel for added corrosion resistance when compared to unplated types. This two-way connector is commonly used to support tubes for mounting sensors, screens, reflectors, plexiglass machine guards, and other industrial components. Thru holes are perpendicular to one another for fixed mounting of components at a 90° angle. MT12/12-CC2W-AN is ideal for applications where the tube angles remain fixed such as on conveyors. MT10:12-ALK-M5-20 adjustable clamping handles can be used in place of standard hardware if rapid fine repositioning of the tube(s) is required. MT12/12-CC2W-AN is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
