Safe-IT UL 1363A Medical-Grade Power Strip for Patient-Care Vicinity, 6x 20A Hospital-Grade Outlets, Safety Covers, 7 ft. Cord

MODEL NUMBER: PS607HG20A0EM

Supplies power to movable plug-connected components mounted to IV poles, mobile carts, crash carts and mobile medical workstations in operating rooms and patient-care vicinities.

Description

The PS607HG20AOEM Medical-Grade Power Strip supplies power to movable plug-connected components mounted to a rack, table or pedestal in operating rooms, patient-care vicinities, therapy rooms, imaging environments and administrative areas. Compliant with UL 1363A specifications, this 120V, 50/60 Hz power strip features a NEMA 5-20P-HG hospital-grade plug and six NEMA 5-20R-HG hospital-grade outlets. Integrated locking safety covers protect unused outlets from debris and damage and prevent unauthorized connections.

The power strip is protected by a antimicrobial powder coating. Antimicrobial protection helps prevent the growth of bacteria, viruses, fungi, mold and mildew. The coating meets the requirements of JIS Z 2801:2000, an international standard for evaluating efficacy in antimicrobial products.

Two built-in resettable 20A circuit breakers control power to all outlets and protect the power strip against overloads. The switchless design prevents the power strip from being accidentally shut off. The seven-foot (2.1-meter) power cord provides ample reach to the AC power source.

Mounting tabs and flanges let you install the PS607HG20AOEM on a wide variety of surfaces, such as IV poles, mobile carts, crash carts and mobile medical workstations. The all-metal housing ensures safety and is guaranteed to last a long time in demanding environments.
