PRODUCT EOL NOTIFICATION

PRODUCT EOL NOTIFICATION NUMBER: 20210207002   **EOL NOTICE DATE**: October 20, 2021

To: Bel customers

From: Bel

This notice is to inform you about the below PLC modules that will be going EOL as of December 31st 2021.

PRODUCTS AFFECTED:

Part Numbers
0804-5000A50
0804-5000E50
0804-5000A51
0804-5000E51
0804-5000V51
0804-5000M51
0804-5000X50
0804-5000X51

The driving factor for this is the upcoming EOL of the INT7400 chip set from Qualcomm. The Last Time Buy for the above products will be December 31st 2021 and will be subject to a 30 week lead time ARO.

There will be no direct replacement for the x51 range as the new chipsets do not support MII. Bel are looking to replace these modules with the 1200Mbps module range. These modules are currently in the final design stages and should be available to sample in Q2'22.

If you have any questions, please contact your usual Bel support contact.
