

Product / Process Change Notification

N° 2017-038-A

Dear Customer,

Please find attached our INFINEON Technologies PCN:

Introduction of an Additional Test Platform for the OPUS Family of Digital Controller Products

Important information for your attention:

- Please respond to this PCN by indicating your decision on the approval form, sign it and return to your sales partner before **11. January 2018**.
- Infineon aligns with the widely-recognized JEDEC STANDARD “**JESD46**“, which stipulates:
“**Lack of acknowledgement of the PCN within 30 days constitutes acceptance of the change.**”

Your prompt reply will help Infineon Technologies to assure a smooth and well executed transition. If Infineon does not hear from your side by the due date, we will assume your full acceptance to this proposed change and its implementation.

Your attention and response to this matter is greatly appreciated.

Infineon Technologies AG

Product / Process Change Notification

N° 2017-038-A

► Detailed Change Information:

Subject: Introduction of an additional test platform Teradyne J750

Reason: Capacity expansion to assure continuity of supply and enable flexible manufacturing.

Description:

Old

- Teradyne Catalyst

New

- Teradyne J750
- Teradyne Catalyst

► Product Identification:

External traceability by lotnumber and datecode.

► Impact of Change:

- No change in datasheet parameters.
- No change in product performance.
- No change to test coverage, as verified by test correlation.
- Product is delivered with same form, fit and function from both testers

► Attachments:

Not applicable, product list is included in PCN document

► Time Schedule:

- Final qualification report: On request (test correlation report)
- First samples available: available
- Intended start of delivery: Phase 1: 01-February-2018
Phase 2: 01-April-2018

If you have any questions, please do not hesitate to contact your local Sales office.
