PCN-2018-04-01
April 19, 2018

Dear Valued TRINAMIC Customer,

this is to inform you that a new CANopen firmware version has been released for the modules listed in table below.

New batches of the modules will be delivered together with this new release V2.10. Modules already shipped can be updated to this new release using the provided firmware update feature of the TMCL-IDE. Prior releases are still available on the corresponding product pages on www.trinamic.com.

Changes:

TMCM-1633 (V2.09 -> V2.10)

- Added support to enable predriver by TMCL command to use the wizards from TMCL-IDE with RS232 interface bypassing the CANopen stack.

This change is classified as a minor change.
