General Product Description:

DTC DTS Terminal Blocks phase-out - part 4

Description of Changes

Dear partner, Following the acquisition of ABB ENTRELEC terminal block business by TE Connectivity in August 2018, the spring and screw terminal blocks sold under DTC / DTS naming will be phased out on June 30th 2020 (product list on the next page). Indeed, this range is in overlap with the existing ENTRELEC ranges called SNAC / SNA / SNK Series that are already well known on the market. As very few partners have used DTC / DTS ranges in 2019, the immediate effect will be the reduction of our safety stocks and inventory, and removal from our catalogs. The warranty of the products is remaining the same for the installed base.

DTC DTS replacement

The diagram illustrates the replacement of DTC and DTS terminal blocks with SNAC, SNA, and SNK series. It is divided into two sections: SCREW and SPRING. For SCREW, DTC Series is replaced by SNAC Series Basic, SNA Series Legacy, and SNK Series High performance. For SPRING, DTS Series is replaced by SNK Series High performance. The TE logo is present in the bottom right corner of the diagram.
